Dear [REDACTED]

Re: Request for Access to Information under Part II of the Access to Information and Protection Privacy Act (the ATIPP Act, 2015)

On June 25, 2019, the City of St. John's received your request for access to the following information:

Kelly's Brook Trail: A trail from Kings Bridge Road to Columbus Drive, that is largely in place as a granular trail today, will be upgraded to an asphalt shared-use path. This shared-use path will link several neighborhoods through an important east-west greenway that largely parallels Empire Avenue.

Rennie's River Trail: This project upgrades the existing walking trail to an asphalt shared-use path connecting the proposed Kelly's Brook shared-use path (Catalyst Project #1) at Portugal Cove Road to Prince Philip Drive. The existing trail sits within a beautiful greenway adjacent to Rennie's River.

Virginia River Trail: This project connects several neighborhoods and important destinations along an existing greenway that extends from Quidi Vidi Lake to Penny Crescent. The existing walking trail will be upgraded to an asphalt shared-use path

How many trees will be destroyed for the proposed bike plan?

Enclosed is the response from staff. Please be advised that you may ask the Information and Privacy Commissioner to review the processing of your access request, as set out in Section 42 of the ATIPP Act. A request to the Commissioner must be made in writing within 15 business days of the date of this letter or within a longer period that may be allowed by the Commissioner:

Office of the Information and Privacy Commissioner
2 Canada Drive; P. O. Box 13004, Stn. A, St. John's, NL. A1B 3V8
Telephone: (709) 729-6309; Facsimile: (709) 729-6500

You may also appeal directly to the Supreme Court Trial Division within 15 business days after you receive the decision of the public body, pursuant to Section 52 of the Act.

If you have any further questions, please feel free to contact me by telephone at 576-8429 or by e-mail at kcutler@stjohns.ca.

Yours truly,

Public consultation and engineering work to determine the final design of these shared use paths has not been completed. As such it is not know exactly where these paths will be, nor the number of trees that will be impacted.
